6. True or False:

Birthdays form a main part of Cambodian Family Life.

Answer:

FALSE:

Birthdays really aren’t a big thing in Cambodia (especially in the rural areas). Some older people may not even know their exact birth date and only recognise their birthday year or season.

New Year on the other hand is the biggest celebration of the year lasting for three days. Celebrated in April, Khmer New Year is a time when Cambodians with Khmer roots stop working for 3 days and return to their homes to celebrate the end of the traditional harvest season. The Khmer community celebrates this day by uniting with their family members and performing purification ceremonies, visiting temples, and having fun playing traditional games.

7. What is the most typical form of transportation in Cambodia?

A. Bicycle

B. Motorcycle

C. Bus

D. Tuk Tuk

E. Cyclo

Answer:

B. Motorcycle

Motorcycles are by far the most common transport medium in Cambodia.

"Cyclo", or cycle rickshaws were popular in the 1990s but are increasingly replaced by remorques (carriages attached to motorcycles) and rickshaws imported from India. Cyclos are unique to Cambodia in that the cyclist sits behind the passenger(s) seat.

9. Approximately how many churches are there in Cambodia today?

A. Over 2,000
B. Over 5,000
C. Over 8,000

Answer:

A. Over 2,000

The early Cambodian church almost disappeared in the 1970s. Despite Pol Pot's attempt to crush the Church, the church has grown. There are now more than 2,000 churches.

Much remains to be done, however. Over 11,000 of Cambodia's 14,000 villages have no church and only 1.16 per cent of the population is Christian.

Please pray with us for continued church growth in Cambodia. Please pray with us for a continued and growing vibrant Christian witness in Cambodia.
